

Grenoble Drug Discovery Club

Second Event, September 28th 2021 (9:00 – 10:40)

Virtual event Via Zoom

Webinar will start at 8:55 to enable connections

Chairs: Andrea Dessen (IBS) and Yung-Sing Wong (DPM/UGA)

9:00 – 9:40 *Integrative Drug Discovery Targeting Protein-Protein Interactions*
Xavier Morelli, Cancer Research Center CRCM, Marseille

9:40 – 10:20 *Structural insights into the mechanism of antivirals targeting influenza virus RNA-dependent RNA polymerase*
Stephen Cusack, EMBL, Grenoble

10:20 – 10:40 *Automated Protein-to-Structure Pipelines for Drug Discovery*
Irina Cornaciu, ALPX s.a.s., Grenoble

Organisers:

Eric Defrancq (DCM/UGA), Andrea Dessen (IBS), Marie-Odile Fauvarque (IRIG-CEA), Laurence Lafanechere (IAB), Jose A. Marquez (EMBL), Christoph Mueller-Dieckmann (ESRF), Yung-Sing Wong (DPM/UGA) & Florent Bernaudat (PSB)
